Net sales and first-year collected premium are statistical measures utilized as indicators of future premium growth. Below are definitions:

Note: The following divisions are exclusive agencies of Globe Life Inc.: American Income Life Division, Family Heritage Division, and Liberty National Division.

⁽¹⁾ Net sales, a statistical performance measure, is calculated as annualized premium issued, net of cancellations in the first thirty days after issue, except in the case of Direct to Consumer, where net sales is annualized premium issued at the time the first full premium is paid after any introductory offer period has expired. Management considers net sales to be a better indicator of the rate of premium growth than annualized premium issued.

⁽²⁾ First-year collected premium is defined as the premium collected during the reporting period for all policies in their first policy year. First-year collected premium takes lapses into account in the first year when lapses are more likely to occur, and thus is a useful indicator of how much new premium is expected to be added to premium income in the future.
